

Hisa Rentals

Smart Rent & Property Management for Modern Landlords and Agencies

Collect rent, manage properties, and stay in control
– without spreadsheets or chaos.

Managing Rental Property Is Still Too Manual

The Reality for Most Landlords

Manual rent tracking (Excel, notebooks)

Confusing M-Pesa payments and reconciliation

Delayed or missing owner statements

Poor visibility on arrears and defaulters

Too many WhatsApp messages and calls

No clear accountability or audit trail

Who Hisa Rental Is Built For

Individual Landlords

Managing 5–100 residential or mixed-use units

Property Managers

Agencies handling multiple properties and owners

Support Teams

Accountants and caretakers managing daily operations

Tenants

Paying rent and managing their rental experience

Complete Rental Management in One System

Hisa Rental brings everything together in one powerful system designed for landlords & property managers

Know Who Paid

Track every payment in real-time with automated M-Pesa integration and instant confirmation

Manage Properties

Track your properties, units, tenants, and leases all in one organized dashboard

Generate Reports

Get instant insights on arrears, occupancy, and financial performance

Collect Digitally

M-Pesa STK Push makes rent collection seamless for tenants and automatic for you

Track Expenses

Monitor utilities, maintenance costs, and generate comprehensive owner statements.

Tenant Portal

Empower tenants with self-service tools to pay rent, submit requests, and view their lease

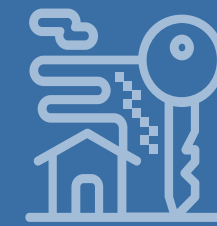

Properties, Tenants & Payments

Manage your properties, track tenants, and collect rent in one place.
